## What's New in the?

View, sort, and share RSS feeds from your favorite social networks. With Feedly Free, you can see what your friends and contacts are sharing and watch great content come in over Feedly. Feedly's web version is now included in the Feedly Free iPad app, allowing you to make rich, custom-crafted RSS (Internet syndication) feeds from your favorite web services. Now you can enjoy Feedly Free on your iPad, iPhone, iPod touch, Android and Kindle devices. You can also access your RSS feeds in the desktop version and use them with other RSS clients. RSS is a set of Web-based syndication formats used for distributing information such as blog postings and news feeds. Information is transmitted automatically (push) or upon request (pull). RSS aggregators transform the input into news feed and present it to visitors, or users can subscribe to the data feed. For example, a company can use RSS to syndicate its new press releases to subscribers. Also, organizations can use RSS to syndicate their web content to other RSS applications. It is an increasingly used method of syndicating content across websites. Requirements: iPhone, iPad, iPod touch. Compatible with iOS 4.0 and above Listing is an excellent application for keeping track of important numbers. The app is specifically designed to help nurses, doctors, scientists, statisticians and others who must keep accurate track of their patient information. The list of items can include birth date, phone number, room number, doctor name, and more. Troubleshooting and support are provided by a team of experts. Listing offers search and filtering options, so that finding the needed information is just a matter of seconds. Your needs are taken into consideration with every feature built into this application. Requirements: iPhone, iPod touch. Compatible with iOS 3.0 and above GeoView is an app for locating places in the world. GeoView uses "place matching" to find your location, and then when you are close to a specific landmark it allows you to zoom in on a specific building, ship, monument or other point of interest. This app uses Google Places to get your location, so it should work very well for you if you are near a Google office. Photo Booth for Mac enables you to store, share, and print images quickly and easily using a Mac, an iPhone, or an iPod touch. With the touch of a button, you can slide between six different photo booth themes. You
