From the Views help, I can use the "Calculate expression" option to suppress the results, but I need to suppress with an input field on the same page and I can't seem to find a way to do it. I should mention that I'm working on an internal site, so I don't need to have the visibility of the content suppressed, just make it count as 0 rows. A: Just stumbled upon this one, I guess I found a solution. Basically, if you put filters where your fields are, then you can use the "Apply Suppressed Filters" in the same Views settings. In this case the "Count of Results" input field is a "Filter Criteria" one, see: Views filter settings Batterer Intervention Program The BIP is a protocol that has been shown to reduce re-offense for those who are violent toward their spouses or partners. It is for those who are violent toward their intimate partners. Medication may be required to treat depression. It is important for you to be treated for depression. Those being treated for depression or who have been successful at treatment are not prevented from participating. Treatment should not interfere with the BIP program. The BIP can be used as a standalone, or in conjunction with domestic violence as a tool to prevent re-offense. Domestic Violence Battered Woman's Support Group The group meets on the third Thursday of each month from 6:00 to 8:00 pm.The second Thursday of each month. The purpose of the group is to provide support and education for women in the community who are currently or who have been battered and injured by an intimate partner.
