EL DORADO **THE BLACK CROSS** [1] Briefly, EDORADO is a hybrid action RPG with RPG elements. It is a game in which you can experience action within the context of a story. EDORADO is targeted at players who love classic games. **PRODUCTION PROCESS EDORADO** **The Black Cross** has been developed by an international team consisting of staff from Bandai Namco Games Inc., the developer of the wildly popular MONSTER HUNTER series and the recent Dragon's Dogma: Dark Arisen, and Key Visual Art, Inc., the developer of the popular Kingdom Hearts series. EDORADO **The Black Cross** will be developed by the team led by Yuya Tokuda, a producer and scenario writer for the DRAGON QUEST series, who will partner with Key Visual Art's Akihiro Suzuki and Kazuhisa Wujiiwara in ensuring its quality. **GAMEPLAY EDORADO** **The Black Cross** **Action System** Action is implemented through automatic movement and a freely switchable combat style. To switch between different action styles, you can freely toggle each command on or off in the Active Command UI. **Character System** A character is developed based on choices made throughout the game. Though you can also assign different roles to each item, it may change the course of the game story if you assign different roles for each item. **Character Roles** Character Roles are new to this game. You can increase the power of your character by characterizing your own Role, and then assign it to weapons, armor, and items. There are several types of Character Roles to explore. **Character Roles** **Basic Type** **A basic Character Role**, which increases the basic attributes of your character. **Specialization Type** **A specialization character role that increases the critical points of your weapon.** **Character Roles that increase your weapon's attack power:** "-" characteristic **Increases the damage of the weapon.** "-"* characteristic **Increases the critical points of the weapon.** **Character Roles that increase your defense:** "-"^^ characteristic **Increases the attributes of your defense.** **Character Roles do not consume the Specialization.** **PRODUCTION PROCESS** **I want to make a game that allows players to experience a totally new way to game. I'm counting on your support.**

I got this question all the time at work. How can I play the Arecibo message?

1. Can you point us to where to start?

2. Do you have an "audio" CD with the song?

3. Are the lyrics provided? (Seems like it might be a better question for 'Rap' or maybe even 'Hip hop?')

4. Do you know anything about the history of the song? Is it an obscure song? Maybe written by Martin Luther King, Jr.?
