Each year, players can progress through a program called the “World Tour” by playing real-life opponents in solo or online matches, winning more challenges, advancing through the World Tour and earning FIFA points for their FUT Performance level. Players can access this feature by going to Settings and selecting World Tour. The World Tour is available in three difficulty levels, Classic, Pro and Master, with greater rewards for players at higher levels. Playing on the Master difficulty level unlocks the “World Tour Master” title, as well as the chance to unlock some additional rewards. A range of new features have been introduced for Ultimate Team, including “My Ultimate Team,” which allows players to see a summary of their current Ultimate Team in their main menu. A new feature, “Team of the Day,” allows players to create a custom player for online games or set for their main menu. They can also stream live gameplay from the “Matchroom” studio in London to their console, via the dedicated “Pitch HD” app or website. Finally, FIFA Ultimate Team will feature a new set of “Featured Players,” which will see top players switch between formations as they progress through the game. In addition, new “My Classics” will appear on-screen in-between feature animations, including dribbles, jumps and shots. FIFA 22 is now available on the Xbox One, PS4 and PC. Luckily there was a pre-order option on the store and I managed to snag one a few weeks ago. Following in the footsteps of their debut EP “Last Orders”, the Wreckers are releasing their second and most recent EP “Wreckers Unleashed”. The 26-minute long release contains 11 songs covering a range of genres including hard rock, alternative, power pop, pop punk, rock and roll. “The whole thing happened organically, so we hope it goes down well with the fans of
