VirtuaGirl HD 1.0.1.1 Offline - Digital Ecstasy crack.. 10.8 MB.Q: How to pass a variable from main to a C program? How do you pass a variable from main, which you declared as a pointer before? I am trying to fill the m\_M\_tableM with the items that I retrieved from a disk file. I have the disk file open and have the binary data in an unsigned char \*buffer, but I don't know how to pass it to the m\_M\_tableM. This is an assignment so I cannot use malloc or new, nor can I use any.h files. This is what I have so far: In my main file I have: ifstream myfile; myfile.open("anagram.txt"); myfile >> m\_M\_tableM; myfile.close(); The code I wrote is as follows: If I do the following, it works fine and I can fill the m\_c6a93da74d
